**Subject: Endorsement of dr. Atun RoyChuodhury**

Dear prof. K. Ramamurthy,

I have met dr. Atun RoyChuodhury during the All India Seminar on Carbon Capture and Sequestration held in Pondicherry on 2-3 November 2017, of which I had the honour of being Co-Chair and Honour Guest. Atun was awarded a prize for the quality and originality of his paper during the said occasion. I had the opportunity of personally checking his wide range of scientific interests and capacity of intercultural / interdisciplinary communication. He has an impressive CV for such a young graduate and was one of the most active participants during the cited Seminar, posing very incisive questions to all speakers.

I hereby recommend him as a valuable candidate for pursuing his Ph.D. as assistant researcher.

Best regards.
